Rickey Cotton, DIR.
GAS PIPELINE SAFETY

For Immediate Release:

Still getting telemarketer calls? Mississippi's "No Call" list can work for you.

Subscribers to the Mississippi "No Call" list continue to ask the question, "Will the No Call program stop all calls". The short answer is no; however, it can reduce them.

Why and how? The Mississippi "No Call" list, regulated and maintained by the Public Service Commission, was designed by law to reduce unwanted telephone solicitations made to residential customers only; however, there are legislative exemptions consumers should be aware of in the law. These exemptions are conveniently located on the PSC website, along with other valuable information regarding who should register, how to register, and how the program works for residential telephone customers registered on the Mississippi list.

I invite you to visit our website at www.psc.state.ms.us/nocall for more information about the list.
