## EXECUTIVE SUMMARY

Governor Robert Lowery signed legislation, on March 11, 1884, creating the Mississippi Railroad Commission. The Governor appointed the first Commissioners to serve for two years, and then, until 1892, the Legislature elected the Commissioners to serve two-year terms. From 1886 until 1938, the Commission maintained jurisdiction over various industries including railroads, express, telephone, telegraph, and limited motor carrier regulation.

During the 1938 Session of the Legislature, the Motor Carrier Regulatory Act was enacted, changing the name of the Railroad Commission to the Mississippi Public Service Commission and placed regulation and supervision of motor carriers under its jurisdiction. Electric, gas and water utilities were placed under the jurisdiction of the Public Service Commission with the passage of the Utility Act of 1956. In 1968, the 1956 Utility Act was amended to include the regulation of sewage disposal systems by the Commission.

Adopted during the 2004 Regular Legislative session, HB 1279 mandated the transfer of all Public Service Commission employees, equipment, inventory and resources, employed and used to enforce the Motor Carrier Regulatory Law of 1938, to the Mississippi Department of Transportation effective July 1, 2004.

At this time, certain telecommunications, electric, gas, water and sewer utilities, are under the supervision and regulation of this Commission. It is the Commission's responsibility to ensure that rates and charges for service are just and reasonable, that the approved rate schedules are adhered to, that the service rendered is reasonably adequate, and that the facilities constructed or acquired are required for the convenience and necessity of the public.

The Commission is composed of three elected Commissioners, one from each of the Supreme Court Districts. The Commissioners are elected in the general election at the same time all other State and County officials are elected. Their term of office is for four years beginning on January 1, following election.

The Gas Pipeline Safety Division of the Commission performs safety inspections including operation, maintenance, design, construction, installation, testing, and accident investigations. In FY23, this department performed 882 inspections identifying 217 violations.

The Legislature passed SB 2445 authorizing the Commission to enforce the Mississippi Telephone Solicitation Act, beginning July 1, 2003. During fiscal year 2022, the Commission registered nine (9) new telemarketers. There are a total of 1,756,182 Mississippi consumers on our "No Call" list. Also during this reporting period, the Commission received 65,568 complaints against telemarketers for violating the Mississippi Telephone Solicitation Act. The Commission issued a total of one (1) complaint against telemarketers and assessed \$1,800,000 in fines and penalties.

It is the responsibility of the Commission to monitor the quality and adequacy of service provided by the jurisdictional utilities including the applications of approved rates and charges. During fiscal year 2023, the Commission received 30,968 consumer complaints against utility companies. During this report period, the Commission was active in the investigation and handling of over 36,885 different matters, which pertained to utility rate and service complaints.
